**REQUEST FOR REVIEW OF PATENT TERM ADJUSTMENT**

Sir:

It has come to our attention that there may be an error in the patent term adjustment calculated by the U.S. Patent and Trademark Office for the above-referenced patent application. Specifically, the patent term adjustment pursuant to 35 U.S.C. 154(b) of 2163 days indicated on the ISSUE NOTIFICATION - Determination of Patent Term Adjustment under 35 U.S.C. 154(b) mailed on September 15, 2010 ("the Issue Notification") may extend the term of this patent by too many days. In particular, it is believe that the delay calculated by the Patent Office as being caused by the Applicants is 106 days too small. Applicants previously filed a paper on February 22, 2010 at the time of filing the Issue Fee

that explained how they believe 93 of the 106 days were over-calculated. Since the payment of the Issue Fee and the mailing of the Issue Notification, there appears to be an additional 13 days of term that should not have been credited to Applicants.

Unfortunately, Applicants cannot discern the reason for the additional 13 days. Please review the calculation of the patent term adjustment and make corrections, if necessary.

Respectfully submitted,
